Vampire

Read about a vampire.

This is a vampire. The vampire bites people on the neck and sucks blood from them. If a vampire bites a person, the person becomes a vampire too. They can turn into a bat and fly. The stories my say that the wampires come out at midnight.

A vampire cannot see itself in a mirror and does not like the smell of garlic. Vampires sleep in their coffins and come out when the sun goes down.

Answer the questions.

Describe the vampire with 3 words.

What can a vampire turn into?

☐

A person

☐

A bat

☐

A pumpkin

What does a vampire not like? Draw a circle.

Werewolf

Read about a werewolf.

This is a werewolf. The werewolf changes when there is a full moon. A person can turn into a werewolf if they are bitten or scratched by another werewolf.

Of course only in stories not in reality.

They are very aggressive, and the only thing that can kill them is a silver bullet from a gun. Werewolves are much faster and stronger than people.

Answer the questions. 

When does a werewolf change?

What is the only thing that can kill a werewolf?

Frankenstein

Read about Frankenstein.

Here is Frankenstein's monster. He was created in a laboratory by a scientist named Frankenstein. The scientist put together different body parts from dead people to make him.

Underline the correct answer.
